

NUBI's internal siren

FEATURES:

- **NBSR01** is an optional accessory for **NUBI 4.0** smoke screen devices.
- When the smoke delivery occurs, the siren will sound for 90 seconds.
- Sound level is about 100db at 1m

MOUNTING:

- **NBSR01** is easily installed inside the smoke screen device, securing it with the two provided screws to the appropriate supports as shown in figure 2.
- The cable connector must be joined to the appropriate socket on the NUBI motherboard.
- NBSR01 can be used with the NUBI 3,6V battery version too (NB40LP1), in this case use also the auxiliary 12V battery model NB12VB.
